

UNMATCHED CLOUD PROTECTION.  
UNRIVALED HEALTHCARE FOCUS.

# In healthcare, innovating in the cloud is a necessity. Doing it safely is hard.

The challenges facing healthcare – from constantly evolving compliance standards to relentless cyber attackers – never stop. At ClearDATA, neither do we.

We help you:

Reduce your risk of PHI data breaches and cyberattacks.

Scale and accelerate your speed-to-market.

Maintain continuous compliance posture.

Modernize digital patient experience.

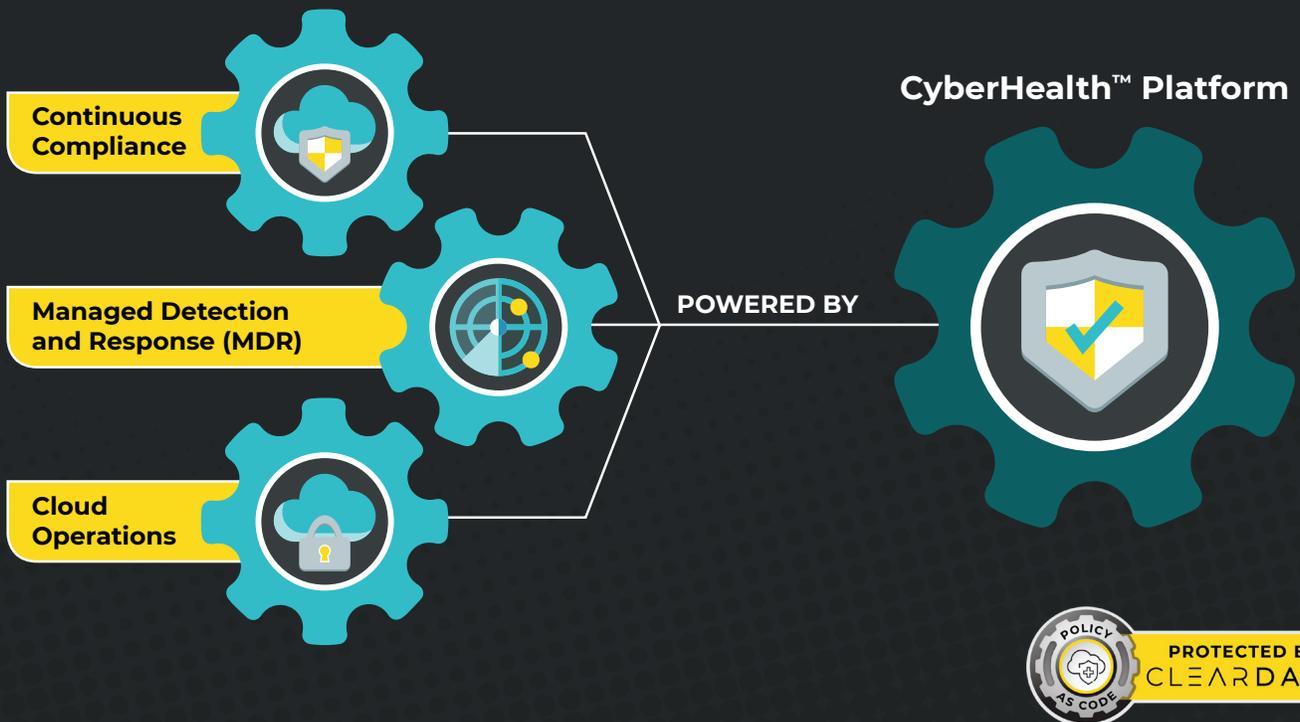

Lower costs and extend your staff.

Deploy EHRs to the public cloud.

Our **Cloud Security Posture Management (CSPM)**, and **Managed Detection & Response (MDR)** software and services are purpose built to protect PHI and other **sensitive healthcare data**.

The **ClearDATA CyberHealth™ Platform** is the first – and only – cloud compliance & security solution **purpose-built for healthcare**

## Continuous Compliance

Our SaaS and managed cloud security posture management (CSPM) solutions, powered by the CyberHealth™ Platform, enforce continuous compliance so you adhere to healthcare standards like HIPAA and HITRUST.

## Managed Detection and Response (MDR)

Managed Detection & Response (MDR) services combine monitoring, threat intelligence and industry-leading technology to provide a complete first line of defense against cyber threats & vulnerabilities.

## Cloud Operations

With our CyberHealth™ Platform, we proactively configure, monitor, and troubleshoot cloud infrastructure in AWS, Azure, and GCP environments to minimize operational overhead and reduce risk.

## Powered by the CyberHealth™ Platform

Our healthcare-native CSPM software includes over 100 safeguards mapped to HIPAA and other regulatory frameworks. It prevents, detects, and remedies compliance drift and sensitive data security gaps across all three major public clouds.
